

**VISION LOSS**  **HEARING**  
RISK ? HEALTH  
AWARENESS DECISIONS

**DID YOU KNOW**

**Dual sensory loss**  
can reduce quality of life in terms  
of physical, emotional and  
social function.

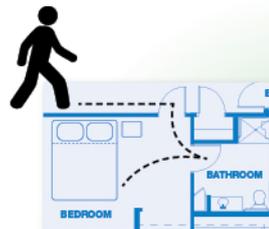

Together, let's help patients  
make well-informed decisions  
and improve their quality of life.

WITH AGING'S INFLUENCE ON VISION AND HEARING, IT IS ESTIMATED THAT BY 2030, AS MANY AS **14 MILLION** OLDER U.S. ADULTS WILL DEVELOP DUAL SENSORY LOSS.

## Research indicates those with *both* vision and hearing loss often have greater:

Difficulty in performing the activities of daily living.

Challenges with interactive daily communication.

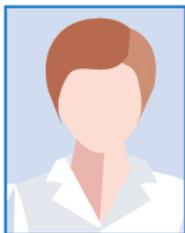

Risk of social isolation and depression.

Risk of falls and related hospitalization.
