

Diagnose & Treat...your own practice

Low practice growth is treatable, particularly with HDI as your growth partner.

If.....

Then.....

There are no educational materials for your patients to read and take home easily available in your clinic...

*You're missing a chance to educate and inform. Check out our peer-reviewed collection of **Patient Education** designs.*

You don't have referral cards available for satisfied patients to pass along...

*Choose a targeted **Internal Referral Program** for friends and family.*

Patients get tested but don't return and purchase hearing aids...

*Consider our **Patient Awareness** series of **Building Relationships Cards**.*

The practice doesn't look outside your clinic to attract potential patients...

*Look into our detailed programs for multiple methods of **External Marketing**.*

There's not much interest at health fairs and school outreach events...

*Our **Health Fair Kits** are easy to move and set up, eye-catching and affordable*
