24/7 NJ MAT Provider Hotline

"In the moment" advice from multidisciplinary NJMATCOE experts for providers who have any clinical questions about using Medication-Assisted Treatment (MAT) for specific patients

CALL (or use the new TEXT function): 844.HELP.OUD (844.435.7683)

MAT for Opioid Use Disorder is evidence-based & includes methadone, buprenorphine, & injectable naltrexone.

MAT may be used as part of a harm reduction strategy proven to reduce illicit opioid use & mortality, & improve overall quality of life.

It is safe & compassionate care.

Together we train & mentor health care providers on high-quality & evidence-based care.
