

THE NCERC ADVANTAGE

Located 30 minutes from the St. Louis International Airport on the campus of Southern Illinois University Edwardsville, the NCERC is the only center of its kind in the world to provide R&D services in the biofuels, biochemicals, biomaterials, and bioproducts industries.

From concept to commercialization—it's all here under one roof.

Through a suite of commercialization services, including project design, proof of concept, third-party validation, and scale up, the NCERC is perfectly positioned through a unique set of facilities to take your project to the next level.

Fermentation Lab

250mL | 5L

Fermentation Suite

30 L | 150 L | 1500 L

Pilot Plant

(4) 22,000 L

What the client envisions, NCERC achieves.
