

Grow PA seeks to convene people and organizations throughout Pennsylvania to establish a modern economic growth agenda for the 21st century that transforms post-secondary education, modernizes all facets of our infrastructure, and accelerates the development of innovation in healthcare technology and delivery.

Grow PA was created in part, due to the budget impasse of 2015, population decline and economic malaise throughout the Commonwealth.

Over the past two years, the Chamber has been working with a myriad of economic interests, local Chambers of Commerce, organized labor, and varied professional associations on what is emerging as a modern approach to agenda setting for our Commonwealth. Specifically, we are seeking to build an agenda around the future of Pennsylvania's economic growth to engage candidates of the 2018 gubernatorial and legislative elections.

On November 15th, a statewide coalition of interests will gather to develop an agenda for economic growth to share with policymakers in Harrisburg. We expect roughly 150 business and civic leaders to attend for this half day program. We hope you and your colleagues can attend as our guest. The event will be held **at 1:00 – 5:00 p.m.** at Penn State Harrisburg, 777 West Harrisburg Pike, Middletown, PA 17057.

For your information, below are links to the online newsletter Grow PA as well as information about the gathering.

- Sign up to receive the Grow PA online newsletter - [Here's the link to the signup](#) or visit: technical.ly/series/grow-pa.
- Join us for our culminating gathering this fall, **November 15th in Harrisburg; the content from this online platform will be a basis for this event that will serve as a catalyst for how we will leverage Grow PA for the 2018 gubernatorial and Pennsylvania elections.** To sign up, visit <http://chamberphl.com/event/4933/grow-pa>
