

## *Youth Energy Leadership Camp*

Each year, CCPPD accepts applications to send students currently in the 9th-11th grades to the Nebraska Rural Electric Association's Youth Energy Leadership Camp. The week-long all-expenses-paid camp promotes leadership and challenges students educationally, recreationally and socially.

## *Youth Tour*

The Nebraska Rural Electric Washington Youth Tour is an annual, week-long, all-expenses-paid trip to Washington DC, that is open to high school students who have participated in the Youth Energy Leadership Camp. Nationwide, rural electric providers from 41 states participate. In all, 1,700 young people from across the nation gather for this event.

## *Scholarships*

One of the best investments a community can make is in education. Each spring, CCPPD awards a \$2,000 scholarship to anyone pursuing a degree in utility line. There is also a Loan Program available. Please contact us with any questions.

## *Safety Demonstrations*

Each year, CCPPD performs several safety demonstrations. The linemen go to schools, 4-H camps, FFA safety days, the local fairs, and fire & rescue meetings. They teach kids (& adults) about safety around electricity.

- Never touch a fallen power line
- Stay away from substations & electrical equipment
- When thunder roars, go indoors
- Never fly your kite near power lines
- Don't climb trees that are near power lines
- Always stay inside the vehicle if the power line is touching it
- Learn how to jump and hop away from the vehicle  
- only if it catches on fire
- Don't hold up ladders or long pipes near power lines
- Always Look Up & Look Out for Power Lines
