

# #INVESTinED

Time is short for collection of signatures on petitions to get the Invest in Ed initiative on the November ballot. Approval of the initiative by voters would mean restoration of an estimated \$940 million annually in K-12 education funding and would help solve Arizona's teacher shortage crisis. A number of Dayspring people are working with other Valley Interfaith Project (VIP) institutions on this important initiative.

To sign a petition or to notarize and turn in petitions, the following locations and times are available:
