- **Livestream mobile app:** The Livestream mobile app is available as a free download for both iOS devices in the App Store and Android devices in Google Play. You will be able to access your account immediately. Once you are logged in, follow [dayspringtempe](#) under the Accounts tab and search for our events.
- **Chromecast:** If you own a Chromecast, you can use it in conjunction with the Livestream mobile app to watch Livestream events on your TV. When you open a Livestream event, the Chromecast icon will appear on the player. Select it to start casting that event to your TV.
- **Livestream Roku Channel:** If you own a Roku device you can add the Livestream channel to your library for free. When you open the Livestream channel, scroll down to the bottom to search for the [dayspringtempe](#) account and find our events. There is no need to log into an account in order to watch a Livestream event from Roku.
- **Livestream tvOS App:** Owners of the 4th generation or higher of Apple TV can install the free Livestream tvOS app to their device. When you open the Livestream channel, a search function can be found at the top of the main page to find the [dayspringtempe](#) account and our events to watch.
