New online book study series from SETC

The New Assistive Tech: Making Learning Awesome for All

Using Christopher's Bugaj's innovative book above, we will lead a discussion on how AT intersects with Universal Design for Learning (UDL) to benefit all students across the continuum. Join us for this 4-part book study and learn about the latest trends in assistive technology, lesson design and inclusion strategies to provide a classroom environment where every student can succeed!

Learning Objectives:

1. How to apply the concepts of Universal Design for Learning and differentiation to support all learners in a technology centered classroom.
2. How to effectively consider and select assistive technology solutions for unique learners.
3. How to support IEP teams in accommodating or modifying lessons to include unique assistive technology considerations and integrate universally designed technology into the classroom
