

# Inclusionary Practices Professional Development

Washington Education Association

## Existing Courses and Trainings

Behavior Interventions, Developing Non-Transition IEPs, Developing Transition IEPs, Section 504, Effective Instruction, Special Education Law, State Standards Instruction and Special Education, Autism 101 & 201, De-Escalation Strategies, Computer Science for Special Populations, and more.  
[www.specialeducationsupportcenter.org](http://www.specialeducationsupportcenter.org)

## STEM Integration

Designed to highlight standards in Science (NGSS), Technology (Washington State Standards), Mathematics (Common Core), and Engineering standards in order to have participants build and implement an integrated lesson with a minimum of two of the STEM components. Instructors will model and demonstrate how to build an authentic STEM experience for students and showcase how to authentically design and implement a lesson with STEM. This workshop will include computer science, UDL, and game-based learning components.

Delivery will be: 5 hours online/independent study prior to training and 10 hours of face to face learning

## New Courses

(6 hours each, available March 1st)

- Foundations for Equitable Inclusive Education
- Effective Co-teaching Strategies for Inclusion
- Empowering Educators through the use of Explicit Instruction in the Inclusive Classroom
- High Leverage Practices for Inclusive Classrooms
- Successful Inclusion of Students with Significant Disabilities
- Assessment Data Collection & Analysis to Improve Outcomes for All Students in an Inclusive Classroom
- Specially Designed Instruction in an Inclusive, Collaborative Classroom Community
- Universal Design for Learning

## eLearning for Educators

Through a partnership with the eLearning for Educators and a grant from OSPI, the Washington Education Association (WEA) is offering on-line courses connected to inclusionary practices at no costs to participants. The on-line courses are available to all educators through WEA's inclusionary practices grant. Funding for this opportunity is limited and is available on a first come-first served basis.
