

Do you have a newly diagnosed chronic illness?

Do you need help keeping up with your prescriptions?

Talk to your physician about Catalyst Health Network's *free* chronic illness management program!

Let your physician know that you want access to:

Additional health professionals who can answer any of your questions and walk you through your health conditions

A dedicated team of pharmacists who can help you manage your prescriptions, help you find the best cost and make taking your medications easier than ever

Care coordinators who can help you manage appointments with specialists and even schedule rides to your visits

How should you talk to your physician about this program?

Let them know you're interested in expanding your care team and working with Catalyst's chronic illness management team.
