

**Miami Beach, FL - Mount Sinai Medical Center (MSMC)** seeks a dynamic, collaborative and respected physician leader to serve as its next **Senior Vice President, Chief Medical Officer (CMO)**. This exciting role will also serve as Senior Vice President of Academic & Research Affairs for the Medical Center and as the key executive responsible for making strategic decisions related to clinical quality, growth and consistency of care including; the coordination of care practice standards across the organization.

Founded in 1949, MSMC is the largest private independent not-for-profit teaching hospital in South Florida. Mount Sinai's Centers of Excellence combine technology, research and academics to provide innovative and comprehensive care. MSMC is a 672-bed teaching institution with over 350 active members of the medical staff, 17 residencies and fellowships, 210 trainees with over \$10 million in NIH funding. As the only Ivy League affiliated program in South Florida, the partnership with Columbia University focuses on integrated clinical care, education and research pursuits in the key service lines of Cardiology, Urology, Orthopedics and Oncology.

The CMO will provide clinical leadership oversight for quality, medical staff affairs, growth of clinical services, and access to care across key strategic service lines. The CMO will have a demonstrated record of success in educational program development, and leading research through scholarly activity and extramural funding. The physician leader who is able to empower and promote partnership with employed and aligned providers in the transition from volume to value will be successful.

This physician leader will lead through a team-oriented approach, will be an authentic medical leader, advance MSMC in its journey to expand its regional clinical network and deliver patient centered outcomes. The CMO will enhance MSMC clinical research efforts and ensure fellows, residents and students receive a superior educational experience. An M.D. or D.O. degree with current Board Certification is required; a master's in healthcare or business administration or related field is highly desirable.
