UPMC
LIFE CHANGING MEDICINE

Chief, Division of Musculoskeletal Imaging Department of Radiology – (Associate/Full Professor)

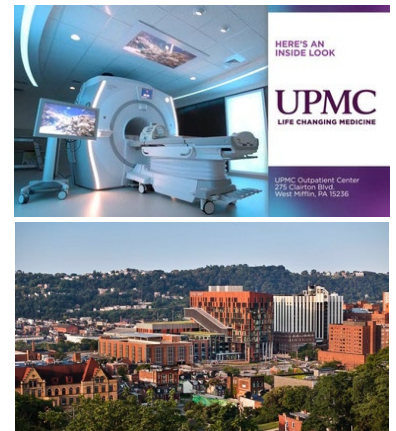

The atmosphere within the Department of Radiology at the University of Pittsburgh is equally dynamic. We are a collegial group of clinicians and researchers dedicated to excellent clinical care, research, and teaching.

We are one of **the largest radiology departments in the world**, with a depth and breadth that is unmatched. We offer a collaborative, innovative, and dynamic environment where your skills and passion for MSK imaging and clinical outcomes will thrive. Our work has a direct impact on advancing treatments and improving patients' lives. If you're driven to make a difference in the world of radiology, we invite you to join our team and be part of transformative advancements in MSK imaging.

Dr. Jules Sumkin, Chair of Radiology, at UPMC/University of Pittsburgh and the Division of Musculoskeletal Imaging are recruiting exceptional leaders for the full-time position of **Chief of Academic Musculoskeletal (MSK) Imaging**. The Division is integral to the care of trauma patients, care of patients with complex hardware complications, athletes at all levels of skill, patients with arthritis, total joint replacements, as well as those with bone and soft tissue tumors.

The Division provides consultative service for the Pittsburgh Penguins (NHL), Pittsburgh Panthers (NCAA), and the athletic teams of the University of Pittsburgh, as well as local colleges and high schools. The MSK Division delivers outstanding interpretative services for MRI, CT, and radiographic studies. Additionally, the Division provides services in MSK ultrasound, diagnostic and therapeutic joint injections, and superficial and deep bone and soft tissue biopsies.

The **Chief position** offers an outstanding opportunity for a motivated individual to build on the success of the distinguished section and enhance collaborations between internal and external partners. The selected candidate will hold responsibility and accountability for administrative and programmatic oversight of the clinical, research, educational, and service activities in Musculoskeletal Imaging in alignment with the department's strategy, vision, mission, and goals. Obligations will include departmental leadership and administration, delivery of high-quality diagnostic care for patients, stewardship of educational and research programs in diagnostic radiology, and faculty mentoring.

Opportunity Details:

- The faculty are actively involved in cutting-edge research in MSK imaging and clinical outcomes
- Mix of clinical, teaching, and research
- Advanced Practice Providers and Reading Room Assistants are in place to enhance workflow efficiency
- Position is primarily on-site with flexibility for some hybrid work
- Clinical and research relationships with other departments, including Orthopedic Surgery, Physical Therapy, Plastic Surgery, and Rheumatology creates a dynamic and robust research environment
- Multidisciplinary conferences broaden the learning and teaching experience for our trainees and faculty.
