

MASSACHUSETTS
GENERAL HOSPITAL

HARVARD MEDICAL SCHOOL
TEACHING HOSPITAL

**Chief, Endocrine Division
Department of Medicine
Massachusetts General Hospital**

The Massachusetts General Hospital Department of Medicine seeks an academic leader to serve as Chief of the Endocrine Division. The successful candidate will be a national leader in endocrinology with an outstanding record of research and academic accomplishments. A firm commitment to advancing the clinical operations of the Division is essential. Accomplished leadership skills with a commitment to clinical and scientific collaborations and multidisciplinary care models is essential. Prior administrative and management experience is highly encouraged.

The Endocrine Division at MGH is the academic home for more than 70 full-time faculty members, many of whom have active research programs across the spectrum of endocrine research. The Division supports educational programs for Harvard medical students, Internal Medicine residents, and fellows. The clinical activities of the Division span a range of inpatient and outpatient settings, providing cutting edge care across the spectrum of endocrinology. The successful candidate for this leadership position will be expected to participate actively across all the activities in the Division and provide mentorship for faculty and fellows in their career development.

The candidate must meet the requirements for appointment at the rank of Associate Professor or Professor of Medicine at the Harvard Medical School based upon experience, training and achievements in addition to teaching activities. Suitable candidates will have an MD or an MD-PhD.

Interested candidates should send a letter of interest and Curriculum Vitae to:

John Stone, MD, MPH
Chair, HMS Search Committee & Director, Clinical Rheumatology, MGH
Attn: Gabrielle Geonnotti, MGHDOMEndocrineSearch@mgh.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
