

Seeking a Pediatric Geneticist to serve as DIVISION DIRECTOR

University of Minnesota School of Medicine

Department of Pediatrics

Lead a dynamic Division of Pediatric Genetics and Metabolism – an outstanding environment for genetic services, providing care for a diverse group of patients

We are seeking an established academic leader eligible for appointment as an Associate or full Professor to direct the Division, which provides care for children and adults with genetic conditions and inborn errors of metabolism in both inpatient and outpatient settings. The Division has been competitive in obtaining research funding, clinical trials and in the in training of medical students and residents. The Department of Pediatrics is a large academic department with over 100 full-time faculty and ranks in the top 10 nationally in NIH funding.

**Our goal is to identify an individual with vision to lead the Division in future achievement. Funds to develop this mission will be available, including the opportunity to recruit additional faculty members in both the research and clinical tracks.** Other highlights include:

- Strong academic affiliation with the Department of Genetics, Cell Biology and Development
- Many opportunities for collaboration, including a large established group focused on lysosomal and peroxisomal disorders
- University is home to 17 centers and institutes including a Genomics Center, Center for Magnetic Resonance Research, Stem Cell Institute, Cancer Center, Center for Neurobehavioral Development, Center for Orphan Drug Research and others
- Largest center for inborn errors of metabolism in the region, robust long-term follow-up program for children identified through expanded newborn screening

The successful candidate will have an MD, MD/PhD, PhD or equivalent with a sustained record of scholarly activity; National/International recognition as demonstrated through involvement in academic/professional societies; demonstrated leadership in a medical school or academic medical center setting.

Community and Campus life: Twin Cities, Minnesota

Have high standard of livability, outstanding schools, and numerous cultural and sporting events. This metropolitan and surrounding area possesses many opportunities for year-round activities, with many lakes, surrounded by miles of biking and cross-country skiing trails. International travel is available at your fingertips with a major international airport in this city.
