

**School of Medicine  
Division of Clinical Sciences**

**Position: Director of the Center for Simulated Patient Care - Professor of  
Clinical X or Health Sciences Clinical Professor at the Assistant, Associate or Full  
Professor Rank**

The School of Medicine at the University of California, Riverside invites applications for the position of Director of the Center for Simulated Patient Care (CSPC). The successful applicant will provide academic oversight for the Doctoring and Clinical Skills curricula *and* the standardized patient program at UCR School of Medicine. This position offers excellent opportunities for teaching, scholarly activity and pursuing a career in academic medicine with time dedicated to curriculum development and innovation. Applicants with five years professional experience as a practitioner in a clinical environment, with significant exposure to direct patient care (nursing, physician assistant, physical therapy, respiratory therapy, or other allied health professional) are strongly desired. Experience with technology systems, such as video capture software and learning management programs, is preferred.

The Director of CSPC collaborates with UCR SOM leadership, course directors, and clerkship directors to ensure integration of doctoring/clinical skills curriculum and will be responsible for building and fostering a positive, inclusive, academic, and innovative learning environment for all students. In addition, the director designs, manages, and evaluates their courses and the standardized patient program in keeping with the overall school learning objectives, directives of the Senior Associate Dean for Medical Education, recommendations of the Medical Education Committee (MEC), Clinical Curriculum Subcommittee (CCS), or any MEC subcommittees, and relevant national society or accreditation recommendations. Use of measurable competency-based outcomes will drive curricular and programmatic decisions to enhance student performance.

The successful applicant must qualify for an academic appointment in Professor of Clinical X or Health Sciences Clinical series at the assistant, associate or full professor ranks. The placement of the successful candidate will be in the Division of Clinical Sciences, or Biomedical Sciences. The successful candidate must possess an M.D., Ph.D., or equivalent degree. Additional degrees related to education are desired (M.Ed., M.Med., etc.). The successful candidate will be expected to show a strong commitment to the education of medical students, residents, and fellows. The successful candidate will also be expected to participate in scholarly activities, University and public service appropriate for the academic appointments in the Division of Biomedical Sciences, or Clinical Sciences. Rank will be determined based on qualifications and experience.

UCR is a world-class research university with an exceptionally diverse undergraduate student body. Its mission is explicitly linked to providing routes to educational success for underrepresented and first-generation college students. A commitment to this mission is a preferred qualification. Advancement through the faculty ranks at the University of California is through a series of structured, merit-based evaluations, occurring every 2-3 years, each of which includes substantial peer input.
