

President

Applications are invited for the position of President for the International Consortium for Health Outcomes Measurement.

International Consortium for Health Outcomes Measurement (“ICHOM”), a not-for-profit organization committed to its mission “to unlock the potential of value-based health care by defining global Standard Sets of outcome measures that really matter to patients for the most relevant medical conditions and by driving adoption and reporting of these measures worldwide.” The next President will succeed Christina Rångemark Åkerman, MD, PhD, who will return to her native Sweden. ICHOM’s goal is to transform healthcare delivery by supporting informed decision-making, improving health care quality, and reducing health care costs.

ICHOM recently initiated an international search for an innovative and highly collaborative physician executive to provide management leadership and strategic direction for the organization working in close collaboration with ICHOM’s small and strongly committed board of directors (See below).

The next CEO will be responsible for charting and managing the growth and development of ICHOM’s services and programs, taking full advantage the resources, stature and talents of its partners, sponsors and members of its board. ICHOM is poised for growth with corresponding investment anticipated for program development and expansion.

Candidates should have an M.D. or equivalent degree and significant management experience. The ideal candidate is an accomplished physician executive recognized for innovation and thought leadership. He/She will have served in a leadership role within an organization with a focus on healthcare delivery science/innovation. This is a unique role for a physician who is skilled at managing a smaller organization operating through collaboration in a complex environment in the U.S. and abroad, who has a strong vision for growth and who appreciates the importance of collegial decision-making in an interdisciplinary structure. This position represents a unique opportunity for a mission-driven leader to scale an established start-up enterprise to meet what should be a growing demand for collaboration and support from ICHOM.

Applicants may forward a curriculum vitae and a brief statement of interest electronically to tricia.porter@kornferry.com or by mail to John Ferry, MD MBA, Senior Client Partner, Korn Ferry, One International Place, Boston, MA 02110
