
CANCER AND BLOOD DISORDERS CENTER

The Dana-Farber/Boston Children's Cancer and Blood Disorders Center invites applications from mid-career or senior pediatric oncologists to become the leader of our Pediatric Neuro-oncology Program. The appointee will assume a tenure track position at Harvard Medical School at a level commensurate with experience. He or she will lead a neuro-oncology faculty group and a robust clinical research staff, all of whom provide care and conduct research in the Neuro-oncology program. Outstanding applicants will be exceptional clinicians with expertise in neuro-oncology, excellent leadership skills, and experience in clinical and/or translational research. Our Neuro-oncology Program is internationally recognized for providing outstanding, multidisciplinary care to children with brain tumors, conducting investigator-initiated, consortium and industry-sponsored innovative clinical trials and is committed to training pediatric oncologists and other experts in the care of these patients. The program also collaborates closely with the multitude of basic and translational research labs in the greater Boston biomedical research community to bring new ideas to the treatment of children with brain tumors. The Neuro-oncology Program clinical faculty group also partners in research with multiple subspecialists in radiation oncology, neurosurgery, neurology, neuroradiology and pathology at Boston Children's Hospital, Brigham's and Women's Hospital, and with the Dana-Farber/Boston Children's Hospital pediatric cancer program in Experimental Therapeutics. The appointee will provide visionary leadership for this busy, well-established, innovative and impactful program.

The Dana-Farber/Boston Children's Cancer and Blood Disorders Center has a faculty numbering more than 100, with exceptional research and clinical programs in non-malignant hematology, hematologic malignancies, solid tumors, and neuro-oncology.

Women and members of under-represented minorities are encouraged to apply. The position will be based at the Dana-Farber Cancer Institute (an NCI-designated Comprehensive Cancer Center). Salary offered will be consistent with fair market rate and commensurate with experience.

Interested candidates should submit a curriculum vitae, a statement of interest, and three letters of recommendation to:

Scott A. Armstrong, M.D., Ph.D.
Chair, Department of Pediatric Oncology, Dana-Farber Cancer Institute
and

David A. Williams, M.D., President, Dana-Farber/Boston Children's Cancer and Blood Disorders Center and Chief
Scientific Officer, Boston Children's Hospital

c/o Tara Roderick
Dana-Farber/Boston Children's Cancer and Blood Disorders Center, 450 Brookline Avenue
Boston, MA 02215
