

UNIVERSITY OF MIAMI
MILLER SCHOOL
of **MEDICINE**

Director, Primary Care Service Line

The Miller School of Medicine at the University of Miami and the University of Miami Health System (UHealth) invites applications and nominations for the position of **Director, Primary Care Service Line**.

The Inaugural Director of the Primary Care Service Line will lead the strategic effort to develop and grow this major clinical service. Leadership at UMiami has a vision for the Primary Care Service Line which is inclusive of multiple disciplines. Medicine, Family Medicine, Gynecology, Pediatrics, Psychiatry, as well as telemedicine and virtual healthcare services are all to be represented in this endeavor. Additionally, there is to be a focus on population health, building upon success and existing resources within the Department of Public Health Sciences. The introduction of preventative care, understanding the social determinants of disease and working to create new relationships with insurance companies related to these initiatives will be a part of this role. As the health system dramatically expands its ambulatory care footprint, adding additional providers, developing new care models, and finding ways to develop partner networks will be essential to maximize system access.

The inaugural Director will be an outstanding leader and skilled physician, widely recognized in the field with a strong track record of program building and innovation. She/he must be a respected leader who is operationally savvy, highly knowledgeable in leading a matrixed clinical enterprise and, and visionary, with the ability to engage diverse stakeholders. Critically, the Director will be viewed by all stakeholders as a strong advocate for balancing the academic, educational, and clinical missions and be a willing collaborator with colleagues throughout the School of Medicine and UHealth. The Director will promote a culture of institutional stewardship and transparency, including commitment to improved clinical operations, efficient and effective use of space, and a willingness to re-align resources with evolving institutional strategies.

The Academic Practice of Korn Ferry is assisting the University of Miami School of Medicine with this important search. Please forward, as soon as possible, your application, including letter of interest, or nominations of appropriate candidates to:
