

WE ARE GROWING & TRANSFORMING

We know children.

Division Chief - Pediatric Endocrinology

Children's Hospital & Medical Center, with the University of Nebraska College of Medicine, is currently recruiting a Division Chief of Pediatric Endocrinology. We seek candidates at the Associate Professor or Professor rank who have administrative, academic and clinical practice management experience within a complex, pediatric tertiary care medical center. The successful candidate will be board certified in Pediatric Endocrinology with strong clinical and leadership experience. In addition to the administrative responsibilities of this position, the individual will share in the clinical responsibilities with six faculty members and an established APP team. This leader will be responsible for developing and implementing the clinical, educational, research and advocacy goals of the institution for Endocrinology and will hold a faculty position at the University of Nebraska College of Medicine. Investigators will be given adequate packages and protected time for research. We seek individuals with strong emotional and social intelligence and a demonstrated ability to connect with others in a meaningful way at all levels of the organization, especially hospital and university leadership. Strong leadership skills and the ability to develop trust and work cooperatively in a diverse and inclusive environment are essential.

Children's Hospital & Medical Center is a 225-bed nonprofit organization caring for children since 1948. Founded by the community and for the community, Children's is the only full-service, pediatric specialty health center in Nebraska, providing expertise in more than 50 pediatric specialty services to children across a five-state region and beyond. As the region's pediatric healthcare leader, we're dedicated to exceptional care, advocacy, research and education.

Our state-of-the-art Hubbard Center for Children opened in August 2021 and is home to Nebraska's only Level IV regional Newborn Intensive Care Unit, Fetal Care Center, the state's only Level II Pediatric Trauma Center and a first-in-the-region Cardiac Care Unit.

The Child Health Research Institute, an innovative partnership between UNMC and Children's Hospital & Medical Center, was established in 2017 and aims to assist investigators with start-up funding and infrastructure for clinical, basic science or translational research.

With a population of nearly one million, Omaha offers all the amenities of a big city with the warmth of the Midwest. The area is rich in arts and cultural activities and is home to a world-class zoo that appeals to children and adults alike. Greater Omaha has an outstanding educational system of public and private schools and is home to numerous universities and colleges. In addition to the many collegiate sports, Omaha hosts the Olympic Swim Trials, the Olympic Curling Trials and the College World Series. All of this, combined with a diverse economy with multiple Fortune 500 companies, makes for an extraordinary quality of life.

We are committed to increasing diversity in our organizations to reflect the population that we serve and encourage applications from all candidates who will contribute to the diversity and excellence of the institution. Nominations, expressions of interest and applications (including cover letter and CV/resume) should be submitted to: Christin Zbylut, Administrator, Physician & Faculty Recruitment, czbylut@childrensomaha.org or 402.955.8344. All replies will be treated with confidentiality.
