

DREXEL UNIVERSITY
College of
Medicine

POSITION TITLE: Division Chief, General Internal Medicine-Department of Medicine

JOB OVERVIEW: The Department of Medicine seeks a visionary leader to provide direction and support for the clinical, scholarly, education, and research missions of the general internal medicine division including both the ambulatory practices and providers as well as the hospital medicine physicians. Successful applicants should be at or above the Associate Professor rank with demonstrated leadership and mentoring skills necessary to support and grow the division. Experiences with health services research, population health, or working with disadvantaged populations are valued. Within the academic environment of Drexel University, collaborative research opportunities are available with the School of Biomedical Engineering, School of Public Health, College of Nursing and Health Professions, and College of Computing and Informatics. The Department seeks diverse, experienced candidates for this leadership opportunity.

QUALIFICATIONS: Qualified candidates must be B.E./B.C. in Internal Medicine and hold an MD or equivalent degree. Candidate must have documented evidence of scholarship, excellence in education, clinical practice and collaborative leadership skills.

ESSENTIAL FUNCTIONS: The division chief will perform the role of a clinical general internist within the Drexel University College of Medicine clinical enterprise. In addition, in cooperation with the Department of Medicine, s/he will be responsible for the clinical operations of the outpatient medical practices of the division, oversee the hospital medicine group, and serve as a leader for primary care expansion within the College of Medicine in partnership with the Department of Family medicine. The Department supports the clinical education of over 500 medical students yearly and 144 internal medicine residents. Furthermore, as chief of the division, s/he will supervise all administrative aspects of the division, reporting directly to the Chair of the Department of Medicine. A priority is placed on mentoring faculty and trainees toward meeting the mission and values of Drexel Medicine. In addition, the division chief will oversee the development of research activities including patient-centered research, clinical trials, and translational science.

RECRUITING SALARY: Commensurate with experience

Drexel University is an Equal Opportunity/Affirmative Action employer, welcomes individuals from diverse backgrounds and perspectives, and believes that an inclusive and respectful environment enriches the University community and the educational and employment experience of its members. The University prohibits discrimination against individuals on the basis of race, color, national origin, religion, sex, sexual orientation, disability, age, and status as a veteran or special disabled veteran, gender identity or expression, genetic information, pregnancy, childbirth or related medical conditions and any other prohibited characteristic. Please visit our website to view all University Policies and Workplace Postings.

Background investigations are required for all new hires as a condition of employment, after the job offer is made. Employment will be contingent upon the University's acceptance of the results of the background investigation.

Send CV or nominations to: Lia Logio, M.D., Professor of Medicine, at ls145@drexel.edu.
