### Director of Geriatric Medicine

The Lewis Katz School of Medicine at Temple University is currently seeking an enthusiastic leader for the role of Director of Geriatric Medicine. The Director will have autonomy to build and grow the geriatric medicine program with responsibility for providing strategic direction and effective leadership in Geriatric Medicine while supporting the Department of Medicine's overall mission.

The Director should be a visionary leader striving to build a new program, provide excellent clinical care and heighten academic activity. He/she will work closely Sr. Leadership in the Department of Medicine to develop and executing novel and integrative care for the geriatric patient that provides quality as well as cost effective care. The initial focus of the program will be to establish inpatient services providing a comprehensive consultation service to acute rehab patients, neurology patients and the hospital medicine service. Additionally, the Director will create a strong foundation for educational opportunities for our internal medical residents. Other initiatives include the establishment of an outpatient service and building relationships with rehab and nursing care facilities.

The successful candidate will be BC in Internal Medicine and Geriatrics and possess the credentials that will qualify for a faculty appointment at Temple University School of Medicine. Rank will be commensurate with experience. Candidate must also have the ability to obtain medical licensure in the Commonwealth of Pennsylvania. The selected candidate will have outstanding clinical skills and must work independently and collaboratively with multi-disciplinary staff, management and other health care providers.

**Temple Health**, one of Philadelphia's leading academic medical centers, is home to more than 1,000 physicians and scientists who share the mission of bringing innovative treatments to patients. Giving our patients access to some of the world's most advanced therapies — and helping them achieve outcomes once thought impossible — is the driving force for all our clinical care, research, and medical education.

Temple's nationally-renowned physicians now offer dozens of powerful new options for patients who, just a few years ago, were considered untreatable. Using sophisticated technologies and personalized treatments, Temple physicians are working to alter the course of serious disease. And in over a dozen research centers at the Lewis Katz School of Medicine at Temple University and Fox Chase Cancer Center, our faculty are speeding the transformation of fundamental scientific discoveries into practical therapies that may one day dramatically improve human health.

Interested candidates should submit a current curriculum vita and complete contact information to the address below. Personal statements summarizing teaching experience, clinical and research interests, leadership experience and contributions to diversity are encouraged.

Interested candidates should email a current C.V. and letter of interest addressed to: Won Han, M.D., Associate Professor and Executive Vice Chair of Clinical Affairs, Department of Medicine, C/O Julie Brissett, Physician/Faculty Recruitment & Retention, Temple University School of Medicine, 3420 N.
