

**CHAIR, DEPARTMENT OF PATHOLOGY
THE METROHEALTH SYSTEM**

The MetroHealth System (“MetroHealth” or the “System”) invites nominations and expressions of interest for the position of Chair, Department of Pathology. As one of the largest, most comprehensive healthcare providers in Northeast Ohio, MetroHealth has been serving the medical needs of the Greater Cleveland community since 1837. Led by President and Chief Executive Officer, Akram Boutros, MD, FACHE, the leadership team is invested in an era of transformation and growth and is committed to the core mission of “leading the way to a healthier you and a healthier community through service, teaching, discovery and teamwork” and envisions MetroHealth being “the most admired public health system in the nation, renowned for its innovation, outcomes, service and financial strength.”

The MetroHealth Department of Pathology is a CAP and AABB accredited full service laboratory, which provides high quality service delivery to our internal and external customers. In this capacity, the laboratory performs over 2.8 million tests annually, at 7 locations throughout the Cleveland area. The next Chair will benefit from the recently approved plan for a \$950 million campus transformation which includes construction of a new in-patient tower, and the development of a new strategically designed pathology laboratory.

The successful candidate will be a highly knowledgeable and widely respected AP/CP Board-certified pathologist with demonstrated leadership skills, as well as a recognized educator and/or investigator whose passion for the educational, clinical, and research missions energize the faculty, staff, and learners, focusing their efforts on a strategic vision of excellence in all missions. Mentoring of faculty and recruitment and career development of faculty are critically important components of the position as the Chair will be a prudent steward of the Department and MetroHealth, guiding through what will almost certainly be uncharted territories of change in the healthcare and social environment. In this context, the Chair reports to the Executive Vice President and Chief Clinical Officer; Senior Associate Dean for the MetroHealth System, Case Western Research School of Medicine, and the Executive Vice President and Chief Operating Officer.

This is an unparalleled opportunity for an innovative pathologist with a desire to lead a prestigious clinical, education, and research department, and serve as an integral leader of MetroHealth during this moment of transformative change across the healthcare industry. The new leader will be part of a mission-driven system that educates health professionals and scientists and provides leading-edge patient care, community service and research whose impact is global.

Korn Ferry is assisting MetroHealth with this important search. For priority consideration, please apply by March 16, 2018. Applications should include a detailed curriculum vitae and a letter of interest that highlight the applicant’s personal vision and relevant leadership experience. To ensure full consideration, inquiries, nominations and applications should be submitted electronically in confidence, to:
