

**System-Wide Director of Infection Prevention**  
**The University of Pittsburgh Medical Center | Pittsburgh, Pennsylvania**

The Division of Infectious Diseases, Department of Medicine, seeks an Assistant, Associate or Full Professor to serve as the System-Wide Director of Infection Prevention (IP) for the Health System.

The candidate will lead system-wide IP in collaboration with hospital IP Directors and Quality teams at more than 20 academic, community, and specialty hospitals. An Associate Director will also report to the Director. The position will also offer excellent opportunities for direct patient care, research and interaction with students, residents and fellows.

Candidates must hold an M.D. (or D.O.) degree and be board eligible or board certified in Infectious Diseases. Training and experience in infection prevention is preferred as is a Master's Degree in Epidemiology or Public Health.

Interested individuals should send curriculum vitae to Kim Zeigler, Senior Director, Merritt Hawkins, [Kim.zeigler@merritthawkins.com](mailto:Kim.zeigler@merritthawkins.com).
