

Job Title: Chief Scientific Officer

Location: Orlando, FL

Institution: Orlando Health

CHIEF SCIENTIFIC OFFICER

Shape the future of cancer care at Orlando Health

Orlando Health Cancer Institute is seeking an exceptional Medical Oncologist to join our team as the Chief Scientific Officer leading and executing on the Orlando Health Cancer Institute's strategic vision, and path to become a regional leader in cancer care research. The incoming physician will receive full support from the organization in building a robust clinical trials program, including access to necessary resources and a collaborative infrastructure. The best-suited candidate will be a Clinical or Translational Physician Investigator. This role offers the opportunity to lead and expand early-phase clinical trials, mentor faculty, and drive the development and execution of innovative research strategies. The successful candidate will play a pivotal role in shaping our cancer research initiatives' strategic direction and coordination. The Chief Scientific Officer will have the opportunity to actively train and mentor fellows in the Orlando Health Cancer Institute's Hematology/Oncology training program, contributing to their professional development and clinical expertise.

Key Responsibilities

- Oversee and enhance the research strategy, with a focus on building a robust Phase 1 and early phase clinical trials program.
- Collaborate with leadership to identify and establish key partnerships across Orlando Health, integrating research strengths to elevate the cancer service lines in both clinical care and research impact.
- Collaborate with leadership to identify and establish key partnerships across Orlando Health, integrating research strengths to elevate the cancer service lines in both clinical care and research impact.
- Establish and maintain an innovative research portfolio that drives clinical and translational research forward.
- Coordinate with institutional leaders to support and advance clinical growth initiatives.
- Foster collaborations that enhance cancer treatment and outcomes.
- Dedicate 50% of your time to expanding the research portfolio and ensuring its alignment with the institute's goals.

The Medicus Firm

Executive Search

Preferred Skills and Experience

- A collaborative and creative leader with a distinguished record in oncology research, including significant publications and funding achievements.
- Proven experience in leading cancer research programs and advancing clinical and translational research agendas.
- Expertise in managing clinical trials and experience in building or expanding programs within NCI-designated cancer centers.
- A strong commitment to multidisciplinary, patient-centered care, and fostering a collaborative approach to cancer services.
- Excellence in patient care and a demonstrated ability to build sustainable partnerships.
- Personal and professional commitment to diversity, equity, and inclusion, with experience in working within a diverse faculty, staff, and student environment.
- Strong business and financial management skills, including budget management and revenue generation.

Reporting Structure

This position reports directly to Dr. Rafael Manon, President of Orlando Health Cancer Institute. The appointee will provide services as assigned by the President in alignment with the institute's missions and goals in teaching, research, patient care, outreach, and public service.
