

**SECTION DIRECTOR CLINICAL MICROBIOLOGY  
UNIVERSITY HOSPITALS/CASE WESTERN RESERVE UNIVERSITY  
DEPARTMENT OF PATHOLOGY**

University Hospitals Cleveland Medical Center/Case Western Reserve University Department of Pathology is seeking a qualified candidate to serve as its Section Director of Clinical Microbiology. This is an exciting opportunity to lead a microbiology program within a large integrated health system and receive support to be involved in clinical, translational, or basic research. The Director will oversee the state of the art clinical microbiology program providing bacteriology, mycobacteriology, mycology, virology, parasitology, and molecular microbiology services to more than a dozen acute care hospitals in the UH network, including UHCMC, Seidman Cancer Center, MacDonald Women's Hospital, and Rainbow Babies & Children's Hospital. The clinical microbiology section includes two other physician faculty and an accomplished technical staff with close interactions with adult and pediatric infectious disease teams.

The successful candidate will lead clinical program development and quality oversight of system microbiology services, provide clinical result interpretation and diagnostic expertise, engage with clinical colleagues and laboratory staff to ensure high quality clinical care and diagnostic stewardship, and engage in education. The laboratory has a robust translational research program, and the CWRU Department of Pathology is in the top 10 nationally in NIH funding. Involvement in clinical, translational, or basic research will be encouraged and supported.

The ideal candidate will have proven leadership experience as well as expertise in clinical microbiology. Candidates must hold an MD (or equivalent) or PhD. MD candidates must be board-certified with fellowship training or specialty expertise in medical microbiology and qualified for an unrestricted medical license in Ohio. PhD candidates must have completed a CPEP-approved fellowship and be ABMM board certified. Academic rank and salary will be commensurate with qualifications and experience.

**Position Highlights:**

- Incredible leadership role within a division that provides comprehensive laboratory services across the full spectrum of diagnosis specialties
- Centralized microbiology laboratory features total laboratory automation and advanced molecular microbiology
- Laboratory features a robust translational research program
- CWRU Department of Pathology is in the top 10 nationally in NIH funding
- Division laboratory sections are led by nationally prominent academic physicians, doctoral scientists, and researchers
- Intra-departmental collaboration with the Center for Global Health and Diseases

**Community:**

Located along beautiful Lake Erie and filled with wonderful opportunities for families and individuals alike, Cleveland is a perfect place to call home.

- Lower cost of living than other major cities
- A variety of housing options, including urban residences, waterfront properties, and suburban neighborhoods
- An abundance of outdoor recreation, including hiking, lakefront activities, and golfing
- An array of amenities, including an international airport, top-notch shopping and dining
- options, professional sports teams, and world-class performing arts.
