

**Department of Health and Human Services  
National Institutes of Health  
Clinical Center  
Chief Medical Officer**

Are you interested in a truly unique opportunity to serve as an executive leader in the world's largest hospital entirely devoted to translational clinical research?

The National Institutes of Health (NIH) invites candidates with strong operational, clinical research, and leadership credentials to apply for the position of Chief Medical Officer at the NIH Clinical Center (CC), Bethesda, MD. The NIH CC is the largest hospital in the world totally dedicated to translational clinical research. The hospital maintains a 200-bed capacity that supports the intramural research programs of Institutes and Centers across the NIH. As a senior executive and principal medical advisor to the hospital Chief Executive Officer (CEO) and Chief Operating Officer (COO), the successful candidate - will lead multiple clinical departments of about 1200 staff in a complex clinical research setting.

The CC is the epicenter for intramural research and collaboration at NIH. An individual selected for this position will keep the CEO and COO apprised of the many aspects of patient care, research, research compliance and Joint Commission requirements. The successful candidate will serve as the CC Clinical Director and collaborate with the Clinical and Scientific Directors of the Institutes and Centers to achieve clinical research goals while ensuring the principles of high reliability in healthcare at the CC.

We seek an experienced and proven leader who possesses exceptional communication skills, the ability to drive operational changes to enhance high quality clinical programs, a strong focus on ensuring patient safety, a high level of comfort leading, consulting and advising a diverse clinical research workforce and running high quality patient care operations in a complex hospital setting. The ability to form partnerships and provide sound guidance at all levels within a complex clinical research setting is key in the performance of routine duties associated with this position. Candidates must be experienced and proven leaders with advanced strategic management and organizational principles and practices.

The ideal candidate must possess a Doctor of Medicine or Doctor of Osteopathy degree, be board certified in a relevant clinical area and have demonstrated experience in a primarily clinical research setting. A track record of excellence in research collaboration or a contemporary independent research program is desirable. The successful candidate will need to demonstrate the willingness to contribute to the achievement of investigators and clinicians throughout the NIH. Candidates with outstanding research accomplishments may be eligible for tenure within the NIH Intramural Research Program.

Salary is commensurate with experience and accomplishments. A full Civil Service package of benefits (including retirement; health; life and long-term care insurance; Thrift Savings Plan; etc.) is available. Applications must be submitted online during the USAJobs open period of Wednesday, October 30, 2019 through Friday, November 12, 2019 by visiting [www.usajobs.gov](http://www.usajobs.gov) website, job announcement # [NIH-CC-DH-20-10601016](#). Please include in your application a description of mentoring and outreach activities, especially those involving women and persons from racial/ethnic or other groups underrepresented in biomedical research.

If you have questions about how to apply for this position, please contact Christine Van Bommel at 301-827-5747 or at [vanbommelck@od.nih.gov](mailto:vanbommelck@od.nih.gov). This position is subject to a background investigation.

The Department of Health and Human Services and NIH are equal opportunity employers.
