Merritt Hawkins academic recruiting division has partnered The University of New Mexico Health Sciences Center, affiliated with the Children’s Hospital of New Mexico, to invite you to consider a Division Chief Pediatric Pulmonology opportunity that provides a unique balance of practice fulfillment, quality of life, and the opportunity to pursue sub-specialty interests. We are seeking an experienced clinician in Pediatric Pulmonary at the Associate or Professor Level to serve as Division Chief of Pediatric Pulmonology and to lead the Pulmonary Division of two faculty and one advanced practice provider.

The ideal candidate will be board certified and have an interest in practicing medicine in a clinical/academic climate with the assistance of a skilled multidisciplinary team in a state with a diverse population. The pulmonary center is a dynamic academic program with clinical, teaching and research activities. The Pediatric Pulmonary Center (PPC) is one of six federally funded Pediatric Pulmonary Centers. They have an accredited Cystic Fibrosis Center, and the UNM Children’s Hospital is the tertiary referral center for New Mexico. Additional programs in asthma, rural outreach, pulmonary tele health, pediatric sleep, chronic ventilation, and bronchoscopy. Opportunities exist for research, community advocacy, education, and expansion of already thriving clinical programs.

**Position Offers:**
- Opportunity to lead and grow a skilled multidisciplinary team in clinical and academic efforts
- Further develop and participate in your subspecialty service area of expertise. Programs in asthma, rural outreach, pulmonary tele health, pediatric sleep, chronic ventilation, and bronchoscopy
- Pediatric Pulmonary Center is one of six federally funded Pediatric Pulmonary Centers
- Accredited Cystic Fibrosis Center—only accredited center in the state
- Opportunities exist for research, community advocacy, education, and expansion of already thriving clinical programs
- Well established clinical trials program with HRSA grant; AsthmaNet, IDaA State Pediatric Clinical Trial Network

**Minimum requirements:**
- BC in Pediatric Pulmonology
- Six years clinical experience
- Able to obtain state licensure(s) in the state of New Mexico
- Must be authorized to work in the United States
Preferences:

- Bronchoscopy experience
- Experience with state-wide outreach programs
- Evidence for leadership roles in academic medicine
- Experience mentoring of junior faculty
- Experience with professional and patient education, teaching, and research
- Prior experience at an accredited Cystic Fibrosis Center

The University of New Mexico’s Children’s Hospital operates in a state of the art facility that provides the most advanced pediatric medical care available in New Mexico. It is the only Children’s Hospital in the State, it has the only level I trauma designation, and it coordinates and runs the only ECMO program in the State. UNM Health Sciences Center has an NIH-funded Clinical and Translational Science Center with a long-standing pediatric and pulmonary component, is a nationally recognized leader in medical education and a major center for health care and research. In addition, UNM is one of the sites in IDeA State Pediatric clinical Trial Networks and it collaborates closed with the Environmental influences on Child Health Outcomes program, an NIH initiative to advance child health and development in multiple areas including pre-, peri-, and postnatal outcomes and neurodevelopment. New Mexico is the Land of Enchantment, offering a rich diversity of arts, history and cultures.
