

DIRECTOR OF CANCER AND BLOOD DISORDERS INSTITUTE

JOHNS HOPKINS ALL CHILDREN'S HOSPITAL

Johns Hopkins All Children's Hospital (JHACH) located in St. Petersburg, FL is seeking nominations and applications for the position of Director of the Cancer and Blood Disorders Institute (CBDI). JHACH is a fully integrated member of Johns Hopkins Medicine, which includes Johns Hopkins University School of Medicine and The Johns Hopkins Hospital and Health System.

The CBDI is one of five Institutes at Johns Hopkins All Children's Hospital. The other Institutes are the Heart Institute, Institute for Brain Protection Sciences, the Maternal Fetal & Neonatal Institute, and the new Institute for Fundamental Biomedical Research. The Institutes are enhanced and supported by research, education, quality and safety, and patient advocacy. The Institutes' organizational structure is matrix-based and led by the Institute Director in collaboration with a Senior Director of Administration and a Senior Director of Nursing. The clinical infrastructure of The CBDI consists of a 26-bed inpatient hematology and oncology unit, as well as outpatient and ambulatory space in St. Petersburg and throughout the region. This program is currently strong in clinical research with over 150 active clinical trials. The CBDI expects to contribute as a national leader in cancer research with the recent opening of a new 225,000 square-foot Research and Education Building. This building houses the Institutes as well as 40,000 square-feet of lab space for basic science and translational research.

Johns Hopkins All Children's Hospital seeks a senior Pediatric Oncologist with a proven track record of successful basic science or translational research, a desire for leadership, and vision to create a world-class academic program at the Cancer and Blood Disorders Institute. The successful candidate will hold a faculty appointment with Johns Hopkins University School of Medicine at the Associate Professor or Professor level. The Director of the CBDI will lead a top-notch clinical and research team that currently includes 16 pediatric hematologists and/or oncologists, basic science researcher, and staff. You will enjoy full-support of JHACH and the leadership, with resources and autonomy to create a national leader in academic pediatric oncology, to include recruitment of research team and faculty.

Johns Hopkins All Children's Hospital is a leader in children's health care, combining a legacy of compassionate care focused solely on children since 1926 with the innovation and experience of one of the world's leading academic health care systems – Johns Hopkins Medicine. The 259-bed teaching hospital, built on a new campus in 2010, ranked as a *U.S. News & World Reports* Best Children's Hospital, stands at the forefront of discovery, leading cutting-edge research to cure and prevent childhood diseases while training the next generation of pediatric experts. The campus also includes an adjacent clinical building and a new research building with ample space to develop research interests within the CBDI and its research collaborators.
