Job Title: Chief of Genetics, Genomics and Metabolic Disorders

Location: Detroit, MI

Institution: University Pediatricians

Chief of Genetics, Genomics and Metabolic Disorders

A Vibrant City for Innovation, Culture and Opportunity in Medicine

Position Highlights

- Center of Excellence in Fetal Alcohol Syndrome Clinic since early 1990's
- Experienced and tenured multidisciplinary team to include physicians, metabolic dieticians, a genetic counselor, specialty trained nurses and nurse practitioners, social work, and psychologists.
- Hospital supportive culture in all areas of genetic testing & research.
- State designated and supported Lysosomal Storage Disease Center.
- Competitive Compensation: \$260-\$300K

Qualifications

- MD, DO, MD/PhD with successful completion of a medical genetics and genomics residency. Preferably a Biochemical Genetics fellowship graduate.
- Track record in building or contributing to collaborative team culture

Community Highlights

- Artist Villages and Cultural Hubs
- *The Artist Village Detroit*: Located in Old Redford, this creative space hosts live music, poetry slams, and art exhibits, fostering a vibrant arts community in a lesser-explored part of the city.
- *Earthworks Urban Farm*: Run by the Capuchin Soup Kitchen, it's a hidden gem for community engagement, offering educational programs about urban agriculture.
- Outdoor and Nature Spots
 - Palmer Park Trails: This park offers serene hiking and biking trails, a little-known oasis for outdoor enthusiasts.

The Medicus Firm

Executive Search

- Belle Isle's Hidden Corners: While Belle Isle is famous, its less-visited spots, like the Wetlands Walk or secluded beach areas, provide unique ways to experience the island.
- *Diverse Culinary Scene*
 - From iconic Coney Island hot dogs to innovative farm-to-table restaurants and hidden gems in neighborhoods like Corktown and Eastern Market, Detroit offers flavors for every plate.
