

On behalf of the Medical College of Wisconsin (MCW), MillicanSolutions, LLC has initiated a national search to identify candidates a new Chief for the Division of Cardiovascular Medicine. The new Chief will lead a Clinical Academic Division that includes clinical, clinician-educator, and research faculty, and advance practice providers. The Division Chief will play a key role in the expansion of the Division and in developing new intra and interdepartmental clinical and research collaborations. The Chief must be an excellent clinician who is able to work in a highly matrixed environment, possess strong leadership and organizational skills and a demonstrated ability to work effectively in a large health system. The Chief will be an MD or MD/PhD and be board certified in Cardiovascular Medicine. The Chief must be eligible for an unrestricted Wisconsin medical license, valid D.E.A number and have an established academic career in clinical or translational research, education, or quality and process improvement and be eligible for a faculty position at the Medical College of Wisconsin at the rank of Associate or Full Professor.

### **Requirements:**

The Division Chief will be a clinical cardiologist of the highest level of accomplishment. He/she should have prior leadership and clinical experience as a leader in a nationally recognized cardiovascular program. The Chief must be able to work in a highly collaborative environment, possess strong leadership and organizational skills and have the ability to work effectively in a large health system.

### **Reporting structure:**

- Reports to the Department of Medicine Chair, Department of Medicine – Roy L. Silverstein, MD.
- The Chief works in partnership with the Director of the Heart and Vascular Service Line (Michael P. Cinquegrani, MD, FACC, FSCAI) to assist in the operationalization of clinical programs, quality measurement and reporting, and health network based strategies.
- Direct reports include all Cardiovascular Medicine faculty employed by the Medical College of Wisconsin, both Medical College Physicians and Community Physicians.

### **Essential functions:**

- Demonstrate, understand and support the mission, vision and values of the Medical College of Wisconsin, Department of Medicine, and the Heart and Vascular service line.
- Work collaboratively with other leaders and colleagues to develop and advance the goals of the Division of Cardiovascular Medicine.
- Work collaboratively with the Cardiovascular Center to establish and grow a vibrant divisional component of the campus-wide cardiovascular research enterprise.
- Lead clinical and academic programmatic growth in tertiary/quaternary cardiovascular care, clinical trials and translational research.
- Recruit, retain and develop cardiology experts that represent a spectrum of expertise in depth and breadth of cardiology care.
- Responsible for encouraging and supporting diversity among the Division constituents, creating an environment of professionalism, collegiality and respect.
- Increase national visibility for the division and department through enhanced clinical and academic achievement.
- Demonstrate professionalism, acting with integrity and inspiring trust and respect.
- Develop strong regional relationships with a referral network of physicians to impact how cardiac care is delivered throughout the region.
- Oversee high-quality cardiovascular education programs, seminars and conferences for employed faculty, community based providers and referring physicians.
- Represent the Medical College of Wisconsin in regional and national organizations and societies and participate in national cardiology meetings, societies and associations at a national level.

**The Division of Cardiovascular Medicine**, located in the Department of Medicine, has 40 faculty members who are involved in patient care, teaching, education and collaborative and innovative research projects with our flagship nationally recognized Cardiovascular Center, MCW Cancer Center, and the Clinical and Translational Science Institute. The Division also is an integral part of the **Heart and Vascular Service Line**, which supports multidisciplinary cardiovascular care, education research across all related disciplines in Cardiothoracic Surgery, Vascular Medicine and Surgery, and Critical Care Anesthesiology at the College. All these activities, ultimately, result in a vibrant environment for collaborative clinical care, research, education and community engagement. The Mission of the Division of Cardiovascular Medicine is to improve cardiovascular health in Southeast Wisconsin and beyond through innovative, cutting-edge research and cost-efficient health care delivery.

**The Medical College of Wisconsin (MCW)** is a private, academic institution dedicated to leadership and excellence. In 2015, MCW had approximately 817 students in Medical School, nearly 400 graduate students and 160 postdoctoral fellows in the Graduate School of Biomedical Sciences. There are more than 670 physicians in residency training and 180 physicians in fellowship training. The Higher Learning Commission (HLC) granted reaccreditation in 2007 for 10 years. MCW is the largest research institution in eastern Wisconsin with \$154 million in grant awards for research, teaching, training and related purposes in FY2013-2014, of which \$138 million was for researching, including funding from the National Institute of Health and other sponsors. Through its clinical operations, MCW providers, physician assistants, nurse practitioners and psychologists care for more than 500,000 patients in 2015 representing more than 2.2 million patient visits.

The Department of Medicine is comprised of 10 divisions, and is led by Chairman, Dr. Roy L. Silverstein. The Department has a significant number of clinical programs with regional affiliations and practice locations outside of the metro Milwaukee area. There are over 300 faculty. The Department's annual budget is in excess of \$160M. There are over 200 trainees in the department's training programs.

**Froedtert Hospital** is the primary adult hospital affiliate of MCW and is staffed by MCW physicians providing care in all medical specialties and subspecialties. Froedtert and MCW are at the forefront of new technology and care in many areas, including cancer, heart and vascular diseases, brain injury and disorders, spinal cord injury, transplant, communication disorders, digestive diseases, diabetes, orthopedics, urology and women's health. A 500-bed hospital, Froedtert, has the only adult Level 1 Trauma Center in eastern Wisconsin. All physicians practicing at Froedtert are MCW faculty members and share the college academic mission. Froedtert and The Medical College of Wisconsin Clinical Cancer Center is a state-of-the-art comprehensive cancer center that brings together everything cancer patients need including, world-class cancer specialists, innovative cancer therapies, advanced treatment technology and the full range of support services to patients and their families. Patients can now go to one place for all their consultations, tests, procedures, treatments, support and follow-up. MCW physicians and practitioners provide primary and specialty care at many other hospitals and clinics in metro Milwaukee and Eastern Wisconsin including Community Memorial Hospital in Menomonee Falls and St. Joseph's; Community Hospital in West Bend. For more information, see [www.froedtert.com](http://www.froedtert.com).

**Clement J. Zablocki VA Medical Center** is one of the busiest and most comprehensive centers operated by the Department of Veterans Affairs. Approximately \$10 million in research (funded primarily by the VA and the NIH) is conducted by MCW faculty members at the Zablocki VA. For more information, see [www.milwaukee.va.gov](http://www.milwaukee.va.gov)

Please contact **Jennifer Schaulin** at (682) 223-5782 or via email at [jennifer.schaulin@millicansolutions.com](mailto:jennifer.schaulin@millicansolutions.com) for more details about the opportunity. All inquiries and referrals will remain confidential without your prior approval. The Medical College of Wisconsin is an EEO/AA Employer M/F/D/V.
