

VANDERBILT UNIVERSITY

**Chair, Department of Biostatistics
Vanderbilt University School of Medicine
Nashville, Tennessee**

Vanderbilt University School of Medicine announces a national search for the Chair of the Department of Biostatistics.

The Department of Biostatistics is recognized nationally and internationally for its research and educational programs. Its 33 full-time faculty, 20 staff biostatisticians and 5 computer analysts have strong independent funded research support programs and play prominent roles in several key institutional research centers, in addition to having close collaborative ties to investigators across the Medical Center and the University. In particular, the Department of Biostatistics interacts closely with the Departments of Biomedical Informatics and Health Policy and the Division of Epidemiology within the Department of Medicine. The Department of Biostatistics has an extensive graduate program that offers both a PhD and MS degree and currently has 28 graduate students enrolled.

The next Chair of Biostatistics will have a sustained record of excellence in scholarly activity, an exceptional scientific reputation, and will demonstrate the visionary leadership skills commensurate with the quality of the Department. She/he will work closely with related departments, will have been active in national activities, and have a professional network that will be an important asset in recruitment and reputation building.

Vanderbilt University is an Equal Opportunity / Affirmative Action Employer.

Qualified individuals should submit letter of interest and CV to:

David F. Penson, MD, MPH
