

Surgical Director, Kidney Transplant Program

Tampa General Hospital (TGH) invites nominations and expressions of interest for the position of Surgical Director, Kidney Transplant Program.

The new Surgical Director of the Kidney Transplantation Program at the TGH Advanced Organ Disease & Transplantation Institute will assume the role at a time of positive change, both within the hospital and the growing clinical environment of the Kidney Transplant Program, which is recognized by the Scientific Registry of Transplant Receipts as one of the top 5 high volume transplant centers in the nation.

The Surgical Director will have an exceptional opportunity to build on the considerable strengths of existing clinical and research programs at TGH by developing new collaborative strategies and initiatives. In doing so, the Surgical Director will advocate for and support a team that will further elevate the Program's stature in the greater Tampa-area and nationally. TGH is committed to the investment and continued development of the Kidney Transplant Program with the goal of its advancement to the top echelon of programs in transplantation surgery.

As Surgical Director, the successful candidate will have accountability for the coordination of quality, safety, and operations, of all clinical activities of the Program. The Surgical Director will be expected to lead the integration of discovery and innovation with clinical practice, as well as a focus on evidence-based medicine and maintain a deep commitment to quality and safety in patient care, and a stronger academic culture.

The ideal candidate for the leadership role is a collaborative transplant surgeon-leader with experience in the application of new knowledge to the practice of surgical transplantation and care. They will be a nationally recognized transplant surgeon with a distinguished track record as a surgeon, with experience in leading and building clinical and academic programs and projects of the highest caliber.

In this highly visible role, the Surgical Director will be expected to interface with, and engage key stakeholders, and continuously foster collaborative interactions and teamwork within the TGH communities and among local stakeholders and referral sources. The successful candidate will be expected to work very closely with other executive leadership teams to expand the Kidney Transplant Program regionally, nationally, and internationally.
