

Director, Pediatric Cardiac Catheterization

Children's Hospital Los Angeles (CHLA) invites applications and nominations for the position of **Director, Pediatric Cardiac Catheterization**.

Ranked No. 1 in California and No. 4 in the nation for Pediatric Cardiology, CHLA is home to a renowned Heart Institute led by respected leaders Vaughn Starnes, MD, and Paul Kantor, MBBCh, MSc, FRCPC. Beginning with the first pediatric heart surgery on the West Coast in the 1930s, the Heart Institute has a history of treating small hearts with big problems. The Institute is known for taking on the most complex cases and maintaining impressive health outcomes by combining expertise in many specialties.

The next leader for Pediatric Cardiac Catheterization will be a nationally recognized physician-scientist with the leadership skills to inspire both internal and external stakeholders, while providing effective management during a time of challenge and change for both the institution and in the health care market due to the response to COVID-19. The Director will be expected to continue the growth of the Program's renowned clinical enterprise while fostering growth of research activities and championing their translation into the clinical enterprise with the goal of impacting patient care, and by so doing, position the Program and Heart Institute at the forefront of academic pediatric cardiology programs in the nation.

The selected candidate will oversee the Program's faculty and guide their career development, establish collaborative interactions with other divisions and collaborating departments, and lead efforts to leverage the institution's extraordinary education and research assets. The next Director will exhibit the qualities required for being a successful leader in a complex, matrixed environment, including the ability to work collaboratively across the various organizational units of CHLA, the Department of Pediatrics, the Keck School of Medicine of USC, and continue to promote strong relationships between the Cardiac Catheterization Program and community providers.
