

Liberty University College of Medicine-Lynchburg, VA
Chair of the Department of Osteopathic Principles and Practice/Osteopathic
Manipulative Medicine

Liberty University College of Osteopathic Medicine, an exceptional faith-based institution, is seeking a physician board-certified in OMM for an academic leadership role serving as the chair of the Department of Osteopathic Principles and Practice/Osteopathic Manipulative Medicine. The incoming candidate will have an exciting opportunity to dedicate himself or herself to the academic environment and, utilizing an established and successful curriculum, continue to develop and build the department through mentorship of junior faculty and medical students.

We are seeking an individual who will contribute to an uplifting Christian environment, model and encourage spiritual maturity in students and faculty, and be available for counsel. This is an opportunity for a candidate to grow as a strong servant leader. The qualified candidate has the opportunity to provide service to the university community and students through serving on COM and department committees; providing leadership, mentorship, and expertise to students; and participating in community outreach events. He or she will also feel the excitement of being part of a large university with Division I sports, theatre, music, and events on a beautiful campus with a vibrant academic community life. Candidates of all academic experience levels are encouraged to apply.

- Provide oversight and direction for the education and instruction of medical students and other healthcare profession students while offering mentorship and motivation for learning, research, and scholarly activity in classroom environments, clinical settings, active learning groups, laboratory experiences, and research opportunities
- Unmatched quality of life and quality of practice
- Opportunity to teach in state-of-the-art OMM labs, deliver lectures and didactic teaching, and oversee the occasional third-year medical student rotation
- Large school endowment and strong support and vision from the dean's office at Liberty University to the College of Medicine
- Opportunity to work alongside well-known and highly respected faculty members who are dedicated to the program
- Ability to maintain clinical practice, if desired
- 5,300-square-foot OMM lab with more than 40 OMM tables—accommodates more than 80 students and doctors per session
- OMM residency approved for up to 12 residents

Liberty University College of Osteopathic Medicine (LUCOM), dedicated in August 2014, is the second osteopathic college in the Commonwealth of Virginia and the thirtieth in the country. Committed to the osteopathic philosophy and heritage of serving the needs of its student-doctors, faculty, and patients today, LUCOM exists to advance both the science and practice of osteopathic medicine. The goal of LUCOM is to ensure its graduates have the foundation of knowledge, skills, and competencies that will enable them to meet the diverse needs of patients they will encounter throughout their professional careers. LUCOM is devoted to producing osteopathic physicians who are professional and ethical. Liberty medical students are training to become doctors with the drive to remain lifelong learners, the desire to contribute to the

advancement of medical knowledge, and the passion to serve their patients throughout their professional careers. LUCOM offers the Doctor of Osteopathic Medicine (DO) degree. Its first class graduated May 2018.
