Phone Conference ID: 886 238 14#

Learning Objectives: Understand the impact of social determinants of health on health care access and outcomes. Describe approaches to screening for social risks and integrating community-based resources into care plans. Identify nursing-related interventions to address social determinants of health.

Target Audience: APRNs, Registered Nurses, Nursing Students

Fees: There are no fees and no prerequisites for this activity.

Continuing Education Credit: 1 CEU will be provided to nurses who complete a brief evaluation following the session. CEUs provided by the University of Tampa.

Dr. Zachary Pruitt is an Assistant Professor at the University of South Florida College of Public Health. Dr. Pruitt recently co-authored the textbook *Healthcare Quality Management: A Case Study Approach*. His research interests include integrating medical and social care for vulnerable populations by addressing social determinants of health. Dr. Pruitt currently serves as the President of the Western Florida Chapter of the American College of Healthcare Executives. He is a fellow of the American College of Healthcare Executives and the Commission on Accreditation of Healthcare Management Education.
