# Let's Code It Programming!

Winter 2020

The Academy at St Joan of Arc

GRADES 4–8

Crazy Keyboards- Programming Pros- This new class will help you connect the world around you to computer programming using the Vilros FunForce Controller! First, you'll program your own creative video game. Then, decide how you want to play the game, using a wide variety of everyday household objects instead of a keyboard. Create a floor piano keyboard and play music with your feet! Turn your seat into a high tech gaming chair, where you tap your armrests to play! This fun-filled class stresses critical thinking, creativity, confidence, teamwork, and problem solving skills to prepare them for the 21st century and beyond. Each student will receive an award on the last day of the session, and will have the opportunity to earn Code Belts to demonstrate their learned skills!

———

Course Time: *Thursdays, February 6th - April 2nd, 3:00 PM - 4:00 PM*

(9 Classes)

To sign up, please visit **http://www.learningmeansfun.com/signup**.
