

# Do you want to help HACC students and alumni plan for their future?

*Supportively*  
**YOURS.**

**HACC, Central Pennsylvania's Community College, is excited to announce the launch of our Mentoring Network Program.**

This service helps students and alumni find mentors for career networking opportunities, as well as gain first-hand experience and valuable insights for career exploration.

Mentors determine how many times they want to be contacted in a month and which experiences and topics they feel comfortable offering. Mentees will have the opportunity to shadow a mentor at their place of employment.

**This is a great opportunity for mentors to:**

- Share their passions
- Achieve personal growth
- Develop a greater appreciation for our community
- Build their leadership skills
