

CAREER CONNECT

WORK-BASED LEARNING CONNECTOR

PENNSYLVANIA'S FUTURE WORKFORCE STARTS WITH WORK-BASED LEARNING

BUILD YOUR FUTURE WORKFORCE

Through Career Connect, the Partnership for Career Development (PCD) connects employers, schools, and community partners to help students explore careers and prepare for what's next while strengthening the regional talent pipeline across South Central Pennsylvania.

Who is PCD?

PCD has been serving South Central PA for over 30 years, serving as a regional intermediary, giving employers a streamlined, efficient way to reach students.

PCD does the outreach to its 24 participating school districts and CTCs as a trusted nonprofit partner in Dauphin, Cumberland, Perry, and Franklin counties, and we are growing.

Build a Stronger Talent Pipeline

We know the workforce is shrinking. By participating in career awareness and preparation activities, we can keep PA talent in PA, and build your future talent pool.

Work-based learning helps students:

- Learn about real career pathways
- Understand local industry needs
- Make informed decisions about education and training

Flexible Ways to Engage Through the Career Connect Platform:

Site visits - Work Experience - Co-op - Paid internships - Unpaid internships - Speakers or presenters - Job shadowing - Mock interviews - Career fairs - What else can you offer?

"Because students can't dream about careers they don't know about"
