STATEWIDE POLICY RECOMMENDATIONS

In addition to critical COVID-19 efforts, the Partnership calls on State leaders to take the following actions to provide relief to low-income families struggling with unaffordable and unstable housing:

- Make permanent the $500 million annual increase to the California Low-Income Housing Tax Credit Program to jump-start affordable housing production and provide an additional $100 million annually to rehabilitate existing affordable rental properties.

- Create a new Affordable Housing Preservation Tax Credit to preserve existing affordable housing at risk of conversion and to fight displacement pressures.

- Streamline Department of Housing and Community Development rental housing funding programs through a single application and award process to reduce development costs.

- Reduce the threshold for voter approval of local funding of affordable housing and infrastructure from 67 percent to 55 percent as was done for educational facilities in 2000.

- Exempt supportive housing and affordable housing funded by MHP, HOME or CDBG from CEQA reviews.

- Allow affordable housing to be built by right on land currently zoned for commercial or public uses and on church-owned lands.

DATA SOURCES & NOTES

- **FUNDING FOR HOUSING**

- **AFFORDABLE HOMES SHORTFALL**
  California Housing Partnership analysis of 1-year American Community Survey (ACS) Public Use Microdata Sample (PUMS) data with HUD income levels. Methodology was adapted from NLIHC gap methodology.

- **COST BURDENED HOUSEHOLDS**
  California Housing Partnership analysis of 1-year ACS PUMS data with HUD income levels. Methodology was adapted from NLIHC gap methodology.
  * Cost burdened households spend 30% or more of their income towards housing costs. Severely cost burdened households spend more than 50%.

- **WHO CAN AFFORD TO RENT**

- **COST OF LIVING**
  United Ways of California, Real Cost Measure Household Budgets 2019. Please visit unitedwaysca.org/realcost for more information on what it takes to meet basic needs in communities across California.
  * The “miscellaneous” budget for a family of three includes all other categories not defined.
  ** The household budget for a family of three uses a population weighted average to estimate the costs associated with one working adult and two children (one school-aged child and one teenager). Each percentage represents how much a family's annual budget is captured in each cost category (housing, child care, etc.).

- **LIHTC PRODUCTION AND PRESERVATION**
  California Housing Partnership's Preservation Database, January 2020. Please note that this data does not include manager units or market rate units created through the LIHTC program.
LOCAL POLICY RECOMMENDATIONS FOR ORANGE COUNTY

1. Create a Countywide Affordable Housing Strategic Plan that establishes annual production goals for affordable homes to be developed in each city and the County and provides a clear path to meeting local housing needs.

2. Pass a county housing bond to create a dedicated source of local funds to catalyze the development of affordable and permanent supportive housing while taking advantage of new state funding.

3. Adopt or increase housing impact fees and commercial jobs/housing linkage fees.

4. Set aside a minimum of 15% of homes in new residential developments to be affordable to very low- and low-income families in exchange for entitlement concessions and incentives.

5. Establish “Housing Opportunities Zoning” in each jurisdiction that allows multifamily home developments that are 100% affordable to lower-income households to be built by-right.

6. Dedicate public land not needed for governmental use for development of affordable housing.

7. Work with the Orange County Housing Trust to maximize the leveraging of new state, regional and private funds to address Orange County’s housing crisis.

8. Protect tenants from displacement by: 1) limiting annual rent increases and prohibiting eviction of renters without good cause, and 2) providing legal resources for evictions.
