

THE PROJECT4FOUNDATION OFFERS: LANGUAGE SUPPORT

ENGLISH VERSION

At New Foundations, we have a diverse community consisting of families from **different cultural and ethnic backgrounds** that may be at a disadvantage at the moment. Language barriers make it hard for teachers to communicate with parents and vice versa so the Project4Foundation is offering language support services to those who need it. We seek to **support our community** at New Foundations and starting next semester, teachers and parents will have access to these services.

Languages Offered:

- Haitian Creole
- Khmer
- Albanian
- Vietnamese
- Spanish
- Arabic

This project is made possible thanks to our **student volunteers** who are willing to give up their free time to help out their community. If you are interested, please contact us at
