

Community Unity Center report/March 29, 2025

1. The Community Unity dinner on March 20 was quite successful. We have two methods of assessing attendance, which are counting the full-sized plates we wash and keeping a tally of adults and children at the greeting table. We had 70-74 participants. Considering this was spring break week, we count that as a win. Last year the week of spring break, we had our lowest attendance ever, around 40 people.
2. We were unable to convene our usual dinner debriefing and future planning meeting shortly after the March dinner, but we will meet April 1 to continue discussing future plans. We hope to have more to report at the April Ad Council meeting.
