**This newsletter:** The Friends of Waccamaw Library's digital newsletter (sent on the first and 15th of each month) aims to let you know what's happening on the Waccamaw Neck and Georgetown (farther afield if it's library-related). This e-communication is sent to all Friends (whose e-dresses we have) and to all who ask to be added to the e-list.

In addition to the programming developed by the library system and the Friends (in red), we will cover other opportunities for quality experiences, education and entertainment. **In case we miss things, a list of websites for local organizations is located at the end of this newsletter. We recommend that you check the website links for possible updates, sold-out status, cancellations, and rescheduling information.** The information is organized by date, so scroll down to the date you are seeking. If you are part of a group or organization with news to share, send us your announcement. Keep it short; just the facts. We cannot reproduce an elaborate pdf with graphics and photos. The key information needed includes: Title of event, Where held, When (date and time), BRIEF description, Benefit for (if applicable), Cost (if any), Contact (phone and email), Website (for more information).

To be added to the e-mail list or to submit an announcement, please send your information directly to the e-newsletter editor Linda Ketron at: [linda@classatpawleys.com](mailto:linda@classatpawleys.com).

This tour will give participants the opportunity to travel from Hobcaw House pier via boat to the 1811 unmanned lighthouse, beach the boat to disembark,

climb the lighthouse and view the harbor. This special boat trip features discussions of ecology, coastal history, and international research on this barrier island between the Atlantic and Winyah Bay where Lafayette landed in America. Snacks, water and PFDs provided. (Exertion level: high impact – embarking/disembarking boat, standing, some sitting, strenuous climb to and through the lighthouse, will need to navigate the small hatch at the top) Reservations required. \$125pp, [www.HobcawBarony.org](http://www.HobcawBarony.org).

**11 AM-1 PM – Tuesday Tastings at The Reserve.** If you have been wanting to change your eating habits, substituting plant-based alternatives for animal products, but are overwhelmed by the options and the expense of trial-and-error, let lifelong professional foodie Holly Poteet and 20-year vegan Cindy Hedrick guide you on the journey to a “kinder” diet – kinder to your health, kinder to the animals, and kinder to our planet. Springboarding from Cindy’s book (*No Voice ... Our Choice*), the duo offer once a month “tastings” in a professional home kitchen, including the options, preparation, and comparative taste/texture. Oct. 3 features “Plant-Based Basics,” learning the alternatives for meats and milks; Nov. 7 presents how to prepare several alternative side dishes for Plantsgiving (different from last year’s); Dec. 5 offers new holiday hors d’oeuvres and sweets! Each session limited to 8 hungry participants. \$35 each or all three for \$100, 843.235.9600, [www.ClassAtPawleys.com](http://www.ClassAtPawleys.com), [linda@classatpawleys.com](mailto:linda@classatpawleys.com).

**11 AM-1 PM – The Moveable Feast: William Rawlings (*Crypto*)** at Pawleys Plantation. A prolific writer of fiction and nonfiction, Rawlings’ new book is the second in the John Wesley O’Toole mystery/suspense series which began with *The Girl with Kaleidoscope Eyes*. The Savannah disbarred-former-attorney-turned-art-dealer is a good guy with good intentions who just seems to get into trouble. When a multimillionaire cryptocurrency trader shows up at O’Toole’s gallery interested in purchasing investment-grade art, O’Toole is leery of what seems to be the perfect opportunity to solve his financial worries. An investigation of the customer finds him to be legitimate and quite wealthy, but the would-be art purchaser has other connections that soon complicate matters and in the process put O’Toole in mortal danger. The fast-paced story zigs and zags to a shocking ending. *You can meet and chat with the author at My Sister’s Books at 1:30 PM.* \$35, [www.ClassAtPawleys.com](http://www.ClassAtPawleys.com) or 843.235.9600.

On the way to the village, participants will be able to view the exterior of Belle’s airplane hangar and discuss her being a pilot, some of her airplanes, and women in aviation. Another stop will be at one of the villages to learn more about the history and research that is taking place on the Barony regarding the African Americans who once lived on the land from early rice growing times to the last inhabitant’s departure in 1952. Next, travel Crab Hall Road to USC/NERR/NOAA and view the outdoor Labs, Research stations, and the beauty of Hobcaw Barony’s pristine 5,000 salt marsh at North Inlet. Learn about the history of this marshland area, as well as some of the ongoing research. The last stop will be with Clemson University’s Belle Baruch Forest Ecology researchers discussing some of the historic research projects as well as the ongoing projects conducted by Clemson. Participants will drive-by the lone cabin at Alderly/Oryzantia, land once owned by Joseph and Theodosia Burr Alston, before stopping in Barnyard Village. Please note that tour participants travel via a 14-person passenger bus on rustic roads comprised of sand and dirt. Often, the roads are extremely rough and rutted, a situation which will jostle riders on the bus. Although the staff at Hobcaw Barony tries to keep them smooth, due to changeable weather and other factors, the condition of the rural roadways cannot be guaranteed to be even. **6 PM – FOWL's Talking History Series** presents Dr. Madison W. Cates will deliver a presentation entitled "Uncovering the History of the Long Black Freedom Struggle at Hobcaw Barony." Building upon ongoing research by the Baruch Institute for South Carolina Studies, Dr. Cates' talk will address the history of slavery at the former plantations that made up much of what is now Hobcaw Barony. Dr. Cates will draw on research conducted by a team of faculty from Coastal Carolina and Francis Marion Universities to shed light on how enslaved persons reshaped the landscape of the Waccamaw Neck not only through forced toil, but also through their resistance to chattel slavery. During the Civil War and other key moments in local history, enslaved communities were active, not passive, participants in remaking the natural and social landscapes of our area. Dr. Claudia Bornholdt, Dean of the Edwards College of Humanities and Fine Arts at Coastal Carolina University, will introduce Dr. Cates' presentation. An assistant professor of history at CCU with a focus on U.S. history, Dr. Cates earned his Ph.D. at the University of Florida in 2020, and his publications include a recent article on environmental justice activism on Hilton Head Island during the 1970s, which appeared in the interdisciplinary journal *Southern Cultures*. He is currently working on a book manuscript examining movements for environmental and economic justice in South Carolina since the 1960s. In the classroom, he enjoys engaging students in discussions about how the past shapes the communities, neighborhoods, and landscapes we inhabit. **11 AM-1 PM – The Moveable Feast: St. James Santee: Parish Plantation** at Caffe Piccolo. After 10 months of getting all the French accents correctly positioned in the long out-of-print but absolutely invaluable history of the “French Santee,” this meticulously researched and highly readable work by Anne Baker Leland Bridges and Roy Williams III, both now deceased, has been reprinted by CLASS for the Friends of Hampton Plantation. Staff of Hampton Plantation and board members of the Friends, as well as Bud Hill, founder of The Village Museum in McClellanville, will explain the value of this seminal work. Spanning the history of the territory between Georgetown and Charleston from 1685-1925, the challenges of the English and the French Huguenots to settle and thrive as refugees from religious persecution is a riveting story as they struggled with climate, terrain, wars, and disease. So many names that grace the streets and buildings of Charleston, McClellanville, and Georgetown find their origins in the families who contributed, out of proportion to their numbers, to the heritage of freedom and prosperity our country enjoys to this day. \$35, [www.ClassAtPawleys.com](http://www.ClassAtPawleys.com) or 843.235.9600.
