

AFTER THE FIRE:

UNDERSTANDING CHALLENGES TO POST-FIRE RECOVERY IN CALIFORNIA

Californians who have experienced wildfire can face major hurdles during the recovery process. If you are looking for information and resources around wildfire recovery, **join the UC ANR Fire Network and our partners to learn about ongoing research efforts that address wildfire impacts on rural and urban communities.** This webinar is intended for all California homeowners, residents, resource professionals, and other interested community members.

Researchers will share the latest information related to water resource contamination, soil contamination and remediation, backyard chicken and livestock safety, and rebuilding and structure loss. **Learn how to protect yourselves, your households, and communities in a post-fire environment.**
