

STAY VIGILANT!

Take a badge, save a life!

Together, we can stop accidental drowning.

Children near the water always need supervision. Make sure your kids stay safe by assigning at least one adult to be a **WATER WATCHER**.

HOW WATER WATCHERS WORKS?

- Wear the badge. It's free!
- Rotate half-hour increments of time between adult water watchers.
- Never leave children unattended near water.
- Avoid mobile devices or other distractions during your shift.
- When your fun in the sun is done, keep the badge for future use or return it to a pickup station for others to use.

This program is part of the Sarasota County Fire Department's Stay Vigilant initiative to prevent accidental drowning.
