

Manufacturing Excellence Training

Manufacturing EXCELLENCE

Explore the basic fundamental skills required to be successful in the manufacturing world.

Purpose of the program:

To introduce Bland and Wythe County high school seniors to the basic fundamentals of production, environmental surroundings, opportunities and success that can be achieved in a manufacturing environment.

Includes training on:

- MANUFACTURING OVERVIEW

- Customers
- Employee Effectiveness

- METROLOGY

- Measurements Certification
- Blueprint Reading

- HAND TOOLS

- Torque Certification
- Personal Protective Equipment (PPE)
- Hardware and Fasteners

- RESUME WRITING

- Job Application
- Job Interview

- FACTORY LAYOUT

- Machining
- Quality Organization
- Basic Assemblies

- SUBTRACTIVE & ADDITIVE MANUFACTURING

Manufacturing EXCELLENCE

Selection process:

Bland and Wythe County high school seniors will be invited to apply for the training by completing a job application and possibly participating in an interviewing selection process. Limited to the qualifying 25 students based on career interests.

Those students completing the Manufacturing Excellence Training will receive a scholarship to be applied to instructional manuals and/or hand tools needed to start a career.
