

WELL BEING  
IN THE NATION  
NETWORK

## Stories and Dialogue

The Story and Dialogue Cooperative anchors the big ideas of WIN through voices and perspectives of stewards working in communities and organizations across the country. Stories, in a variety of formats, elevate the possibilities of well-being initiatives, shifting the dominant narrative around intergenerational health and equity. Dialogues create shared meaning, facilitating implementation of policy recommendations and catalytic measures.

Join us on Tuesday, April 14th at 9 am PT/12 pm ET to create our WIN-COVID dialogue guide. Cooperative members will integrate elements from the Living Room Conversations guide and Communities WIN to develop a tool for collective reflection and action.

Interested in learning more about the Cooperative or participating in the April 14th session?
