- With World Wide's No-Trim Technology, you get the latest and most modern looking letter on the market with its clean and professional enhanced profile, letters are "flush to the returns" for that high end result.

- No, this is NOT the step routed $\frac{1}{2}$ " – $\frac{3}{4}$ " acrylic face design, but a real trimless design.

* Options: flush mounted face lit, reverse / halo, front lit / halo lit combination.

* The acrylic face can either be recessed or extended past the returns for that elegant edge lit design, creating a sharp and modern lighting effect.

* World Wides No-Trim Technology can be used both on exterior and interior applications.

* Return depths of 1.37", 2", 3" and 4".

(Return depth availability may vary with letter style)
