St. Giles COVID Infection Protocol Guide

(9/1/2020)

Symptoms

- Cough
- Shortness of breath
- Chest discomfort
- Fever of 100.4 degrees or higher
- Chills
- Headache lasting more than 30 minutes after drinking water
- Muscle soreness or body aches
- Sore throat
- Colored discharge from nose
- Unexplained loss of taste or smell
- Nausea, vomiting or diarrhea (frequent bathroom requests)

Protocol following Archdiocese Guidelines

Student exhibits any symptoms during morning wellness check or while in school.

• Actions

- After evaluation, teacher notifies office that a student is exhibiting symptoms from above list. School calls parent/guardian for immediate pick up.
- Parent/guardians are required to pick up student from school as well as any siblings or any other member of the household who may be working or volunteering at St. Giles. Physician must be contacted for evaluation and possible COVID testing.
- Student and siblings must stay home until either tested or other diagnosis is indicated by the physician. Students may only return with a physician's note indicating negative test or other diagnosis.
- Without either of the above, student and siblings are required to quarantine at home for 10 days.
