San Jacinto River Authority
Attn: Board of Directors
1577 Dam Site Road
Conroe, TX 77304

Dear Members of the Board:

I am writing this letter requesting your consideration in the relocation of the February 20 special meeting to hear public comment on the temporary flood mitigation strategy of lowering Lake Conroe on a seasonal basis for 2020. With the first meeting being held in Conroe, and the overwhelming feedback from residents in both the Lake Conroe and Lake Houston areas, I believe it is a fair decision to move the second meeting to a location more convenient to Lake Houston area residents as the operation of the Lake Conroe Dam directly impacts the public safety of downstream residents in these communities.

The Lake Houston Area Chamber has been in contact with the New Caney ISD Superintendent who has offered the use of the Porter High School Auditorium, which is located in Montgomery County, as a host location for the Meeting on February 20. This facility can accommodate 650 occupants, which fits the requirements for this meeting.

Thank you for your consideration. Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in cursive script that reads "Dave Martin".
